## Education

### **Stony Brook University**

*Stony Brook, NY | Expect Graduation - June 2028*

B.Eng. in Computer Engineering

**Relevant Coursework:** Discrete Math, Intro to Electrical and Computer Engineering, Circuit Analysis, Multivariable Calculus, Differential Equations, Data Structures, Algorithms, Digital Logic

## Skills

**Languages:** Familiar: C/C++, Python, JavaScript

**Tools:** Git/GitHub

## Experience

### **A & T Contracting | Digital Projects Coordinator**

*Brooklyn, NY | June 2023 – August 2023*

- Developed the automated email writer currently in use utilizing Python, enhancing business efficiency and improving customer communication
- Managed and wrote estimates, invoices, and contracts, ensuring accurate communication with clients.
- Served as the primary point of communication between clients and the company, handling all lines of communication to ensure smooth project execution.

### **NASA L'SPACE Mission Concept Academy | Computer Hardware Engineer & Mission Assurance**

*Specialist*

*Remote | Jan 2026 – Present*

- Collaborated with our team in the development of NASA-funded, multidisciplinary robotic lunar mission concept documentation for identifying and exploring permanently shadowed regions (PSRs) at the lunar south pole
- Assisted in completing Mission Review Deliverable documents via contributions from technical research, hardware design/development, and mission assurance documentation
- Completed a comprehensive literature review on lunar surface conditions as well as the volatile characteristics and environmental conditions within PSR regions to inform system design decisions and provide science traceability

## Projects

### **Automatic Email Bot**

*June 2023*

- Engineered an automatic email template bot that automates the creation and sending of emails, streamlining communication processes within business operations.

## Extracurriculars

### **LMGHS Engineering Club | Member**

*Nov 2023 - March 2024*

- Designed/built model bridges, and ran bake sales for funding

### **Mosque | Volunteer**

*June 2023 - Dec 2023*

- Helped Kids improve their Quran reading skills, kept mosque clean, and helped maintaining it

### **Personal Tutoring**

*Sept 2024 - Dec 2024*

- Tutored cousins and family friends in math and writing, improving their understanding and academic performance
